

Bigbelly

FOR AMUSEMENT PARKS

Elevate the Guest Experience

Supporting optimized operations, elevated destinations,
and exceptional guest experiences across attractions,
entertainment, dining, and themed environments.

Optimized Operations | Elevated Destinations | Guest Experience

All Together Better®

Optimized Operations

Amusement parks face increasing operational demands while maintaining attractions, entertainment venues, dining areas, and guest spaces with limited staff and resources. Seasonal attendance, peak operating days, and special events generate significant waste volumes that require efficient collection and responsive operations.

Bigbelly’s smart, connected, solar-powered waste and recycling stations optimize operations, maximize staff resources, and help maintain cleaner, more welcoming destinations.

80% Reduction in Collections

Reduce collection frequency by up to 80%, allowing operations teams to spend less time servicing waste stations and more time supporting attractions and guest services.

Operational Visibility

Bigbelly’s CLEAN™ Management Console provides real-time fullness monitoring, alerts, reporting, and operational insights that help teams prioritize collections, prevent overflows, and improve efficiency.

Reduced Bag Usage

Reduce plastic bag consumption by up to 80%, lowering operating costs while supporting more efficient daily operations.

Elevated Destinations

Overflowing waste bins, litter, and access by rats, squirrels, birds, and other scavengers can negatively impact beautifully themed environments, guest perceptions, and the overall appearance of the park.

Bigbelly’s fully enclosed waste and recycling stations eliminate pest access and wind-blown litter to help maintain cleaner, more attractive destinations.

Eliminate Litter

Fully enclosed stations help eliminate wind-blown and pest-strewn litter, reducing cleanup throughout the park.

Reduce Pest Population

Eliminate a major food source for rats and other pests to support cleaner, healthier public spaces.

Custom Wraps

Custom wraps and message panels integrate seamlessly into themed environments while supporting park branding, guest communications, sponsorships, and seasonal events.

Guest Experience

Today’s amusement parks create memorable experiences through attractions, entertainment, dining, retail, and beautifully maintained public spaces. Overflowing waste bins and litter can quickly detract from the guest experience while impacting the cleanliness, safety, and appearance of the destination.

Bigbelly helps create cleaner, safer public spaces by supporting well-maintained attractions, dining areas, pedestrian walkways, queue lines, and gathering spaces throughout the park.

Attraction & Queue Areas

Support cleaner attraction entrances and queue lines that enhance the guest experience while reducing visible waste.

Dining & Gathering Spaces

Maintain cleaner food courts, outdoor dining areas, entertainment venues, and gathering spaces with attractive, fully enclosed waste and recycling stations.

Pedestrian Walkways

Create cleaner, safer pedestrian walkways and public spaces that connect attractions, dining, retail, and entertainment throughout the park.

Bigbelly Across Your Park

See how Bigbelly supports optimized operations, elevated destinations, and exceptional guest experiences throughout your park.

Main Midways

BENEFITS:

- Support peak attendance
- High-capacity via compaction
- Reduce overflowing bins
- Wheeled lift bin for remote areas

The Bigbelly System

Supporting cleaner, smarter, and more connected operations.

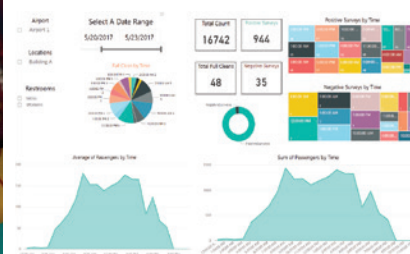

Smart Waste Stations

- Smart and connected
- 5X capacity via compaction
- Fewer bins without overflows
- Multi-stream kiosks

CLEAN™ Management Console & CLEAN™ Mobile

- Real-time fullness visibility
- Collection insights
- Operational reporting
- Service prioritization
- Performance analytics

CLEAN™ API

- Connect operational data with facility and workforce management systems
- Support smarter decision-making across the park

Why Bigbelly

Easy to Install and Operate

- Solar-powered for outdoor units, AC for indoor use
- Hands free foot pedal
- All data stored in the Bigbelly cloud, no IT resources or setup required
- Safe, no reach-in access to waste compaction area
- Allows waste deposit during compaction
- Whisper quiet chain-drive compactor
- Liquid spill proof design

Sustainability-Minded

- Industry leading energy efficiency; less than \$1 of electricity per year for AC-powered units
- Modular design; customizable with 5 different waste streams available in both compactors and non-compactors

Data Where and When You Need It

- Comprehensive real-time data collection, reporting and email notifications
- API enables data access by park systems

Planning for What's Next

Amusement parks continue to invest in new attractions, themed lands, entertainment venues, dining experiences, and guest amenities that create memorable experiences and encourage repeat visitation.

Bigbelly integrates into master plans, capital improvement projects, park renovations, and new attractions to support optimized operations, destination appearance, and exceptional guest experiences for years to come.

The Bigbelly Solution

Built to Last. Built for Life. Performance That Endures.

ELEMENT

Hide waste in plain sight and keep it there

- 47 Gal / 178 L capacity
- Fully enclosed

SENSE

Hide waste in plain sight and know at a glance when it's full

- 47 Gal / 178 L capacity
- Fully enclosed
- Fullness Indicator
- Battery-powered

SENSE MAX

Know at a glance when it's full; with added capacity

- 150 Gal / 570 L capacity
- Fully enclosed
- Fullness Indicator
- Compactor
- Solar- or AC-powered

SMART

All the essentials plus it's smart and connected to CLEAN™
